WHAT IS AGENDA 21?

Agenda 21 is a globalist attempt to impose UN environmental regulations aimed at controlling your local city and town through the International Council for Local Environmental Initiatives (ICLEI), created in 1991, which already includes hundreds of member cities and towns in the United States and around the world.

SUSTAINABLE DEVELOPMENT

"Current lifestyles and consumption patterns of the affluent middle class – involving high meat intake, use of fossil fuels, appliances, home and work air conditioning, and suburban housing are not sustainable."

— Maurice Strong, Secretary General of the United Nations 1992 Earth Summit
